August 18, 2004

Dear Colleague,

On December 11, 2004, Self Storage Economics is sponsoring “Corazón for Christmas” in Nuevo Milenio, Mexico. With your help we can build a house *in one day* for a family that is in need. The day will start at 6am and conclude at nightfall. It will be a day of hard work and dedication to the completion of a 16' x 20' home.

Corazón is an all-volunteer, nonprofit, nondenominational corporation formed in 1978 to serve the poor in Mexico. The *familia* Corazón program is not a handout to the poor; rather, it is a proven method of assistance that allows the poor to help themselves. Corazón helps the poor by letting them earn hours through working in their community. These hours can be exchanged for food, clothing and other needed supplies. This helps the families to help themselves and work alongside their neighbors.

I want to personally ask for your support in two ways: by contributing time and/or money. You can volunteer your time on December 11th to help the volunteers from Self Storage Economics build a house in one day. You can also support us by a financial donation to the cause. Self Storage Economics is responsible for the entire \$5,500 needed to build the house plus any additional expenses. We need time and money to make this a success!

Please respond by September 15, 2004. We are limited to 50 committed volunteers (14 years and older) and they will be assigned on a first-come, first-served basis. Please complete the attached registration form and include your donations in the self-addressed/stamped envelope to Self Storage Economics, and make all checks payable to Corazón. Also included are answers to most of your questions but feel free to contact me with any other questions or concerns.

Self Storage Economics is committed to helping the poor within our reach. Through “Corazón for Christmas” we can all work together to provide hope and holiday cheer to a family in Mexico this year. I hope you will join us in this worthy cause!

Warmest regards,

R. Christian Sonne, MAI, *Principal*  
Self Storage Economics
